CONSTRUCTION ENGINEER  
TOWN OF COLCHESTER

This position provides construction engineering and management services for the Town. Responsibilities include the management of design, permitting, right-of-way acquisition, bidding, and construction of public improvement projects related to transportation, stormwater, wastewater, water, and buildings. For complete job description see https://colchestervt.gov/DocumentCenter/View/4922/construction-engineerJD

The ideal candidate will have a thorough knowledge of the theory and practices of construction and project management, permitting and right-of-way acquisition, and public communications with property owners. An Associate’s Degree with major course work in civil engineering with five years of progressively responsible construction and project management experience is preferred. Other qualifications may be considered.

Apply by Friday, June 26, 2020 online or submit resume and application to Human Resources, 781 Blakely Road Colchester, VT 05446; or email to slabarge@colchestervt.gov. Position is open until filled. Salary range is $62,693 - $67,154, depending on qualifications, plus a competitive benefit package. E.O.E.
